## Product Change Notification

**PCN Publish Date:** October 19, 2005

**PCN #:** 017809-042606

**Change Title:** Product Process Change

**Products Affected:**

<b>Current Aavid Part Number</b>	375224B00032
<b>New RoHS Compliant Part Number</b>	375224B00032G <span style="float: right; color: green; font-size: small;">RoHS  Compliant</span>

**Description of the Change:** : In an effort to make our product line more compatible with regulatory and environmental guidelines, we are changing the volume manufacturing process for the above products to make them RoHS compliant with Aavid Thermalloy specification RoHS 9000. (Available at <http://www.aavidthermalloy.com/RoHS.shtml> ).

The current version of this product uses a non-RoHS compliant thermal interface material. Aavid has substituted an RoHS compliant material from the same vendor with equivalent thermal properties. Product being built using this new material is identified with a "G" suffix at the end of the part# as show above in Products Affected.

**Scheduling of Change:**

**Sample Date:** Samples are available now for customer testing.

**Volume Production:** Volume production will be available November 18, 2005. New orders should be placed for the "G" suffix product. Please adjust your current orders so that they can be filled accordingly depending upon stock and availability.

**EOL of unchanged Product:** Once manufacturing has been converted to the RoHS compliant material, it may still be possible to manufacture products with non-compliant materials. However, products manufactured with non-compliant may require a pricing adjustment due to the cost increases associated with lower volume manufacturing.

**Customer Impact:** This new thermal interface material exhibits the same thermal characteristics, which should result in equivalent performance of the heatsink.

**Qualification Results:** For an Aavid Thermalloy solderability qualification report visit our RoHS website. <http://www.aavidthermalloy.com/RoHS.shtml>

Aavid Thermalloy LLC  
80 Commercial St.  
Concord, NH 03301

**Contact Information:** For question please contact Aavid Thermalloy Technical Support at [info@aavid.com](mailto:info@aavid.com) or your local sales office.

*Please respond with any issues within 30 days of this notification. Lack of acknowledgment of the change constitutes acceptance of the change.*
